

**HOW TO SUBMIT PHOTOGRAPHS TO BE USED IN THE  
TOWN OF TURTLE  
COMPREHENSIVE DEVELOPMENT PLAN**

Work as begun on the Town's Comprehensive Development Plan, and the plan itself should be more than just text, charts and graphs. We are looking for visual representations to help depict what the Town is like today, and what it is planned to be like in the future.

We will credit each photographer for any photographs incorporated into the plan. We do not guarantee that every submission will be used. Photography is strictly voluntary, and will not be reimbursed monetarily or by any other means. We are not looking for the most attractive or professional-looking photographs. We are only looking for photographs that work well with the text of the plan.

**RULES FOR SUBMISSION:**

We are asking only for digital photographs. All photographs must be original, non-copyrighted material. Remember not to trespass while taking photographs. Only include people in photographs if you are able to get their written permission.

All photographs must fall into one of the following categories/topics:

- Good/Attractive housing development; must be relatively new (can be located anywhere, even someplace other than in the Town of Turtle)
- Bad/Unattractive housing development; must be relatively new (can be located anywhere, even someplace other than in the Town of Turtle)
